Irish Linens, etc. was seen in various cities of the East on Friday evening: About half-past nine a very extraordinary meteor made its appearance in the heavens. The writer was riding in Broad-street, below the city, and had a fair view of the phenomenon in its whole course. It rose in the north-western part of the heavens, from a cloud which was not revealed until the light of the meteor made it visible. Then an object, about the size of the full moon, and as bright, suddenly started from the cloud, traversed, in a direct easterly line, the whole extent of visible space, dropping fire apparently, in its course, like a rocket, till it passed so far eastward as to resemble a red ball, about twice the size of the planet Mars, visible in the south-cast. COVINGTON NEWS.

SUIGIDE.-Day before yesterday, in the

SUGDE,—Day before yesterday, in the afternoon, an unknown person came on board the Central-avenue and Main-atreet ferry-boat from the Cincinnati side, and after waiting till the boat had reached the middle of the river, leaped into the water, and was drowned. He appeared to be about thirty-five or forty years of age, but nothing could be ascertained as to his name or residence, or the cause which led him to destroy his own life.

Police Count.—F. M. Brown, whose arrest as an alleged dealer in counterfeit coin we noticed some days since, was yesterday brought before Mayor Foley, and held over

in the sum of \$250 for his appearance at the next term of the Circuit Court.

MURDER IN HARRIBON COUNTY.—A man named Henry Eads, who resided at Lee's Lick, Harrison County, was instantly killed on Saturday last, by a man named Hamilton. The parties had a difficulty, and some harsh epithets were passed, when Hamilton struck his antagonist on the head with a club, breaking his skull, so that his brains were scattered in every direction around the spot where the parties were. We were unable to learn whether any arrest has been made.

LEACHES FOUND IN EGOS.—Mr. Pisher, who

resides at or near Milwaukie, found, on breaking some eggs last Monday, that two of them had small teaches in them, of a reddish color, alive and active. He took the leeches, still alive, to Dr. Plessner, of Saginaw City, for examination. Egg fanciers and cooks generally, will do well to exercise a little in examining their hen fruit.

FATAE RAILWAY ACCIDENT.—A night or the ago and Virginia Railroad run over a negro and a white man, lying on the track about a mile cast of Strawberry Plains Depot. The negro was killed instantly, and the white man was not expected to live.

caused considerable wonderment for the time, and was certainly the most extraordinary appearance that we ever saw in the heavens. Its motion was not so fast, apparently, as that of a rocket, though its hight and the vast extent of space that it traversed, proved that its velocity must have exceeded that produced by any known force which we are acquainted with. The phenomenon, from all appearances, must have been electrical.

IMPROVED COPYING PAPER.—Copying paper,

Improved Copying Paper, —Copying paper, into the body of which a certain proportion of protosulphate of iron (copperss) has been introduced, either during the manufacture or afterward, by passing it between rollers covered with felt impregnated with a solution of salt, is much more advantageous in use than the common paper. A letter writer with common ink containing an infusion of nutgalls, or having the tauno-gallate of iron for its base, and covered with the above copying paper, gives, by means of the press, a perfect for smalle. If a little sugar or pyrogallic acid is added to the ink, a good copy may be had by pressing lightly the copying paper upon the latter without the use of the press, taking only the precaution to interpose between the hand and the sheet of copying paper, another sheet of oiled paper, over which the rubbing must be done.

ABBEST OF AN ALLEGED THEFF.—Day before yesterday a man named Taylor entered the jeweiry establishment of E. H. Hill, No. 14 West Fourth-street, apparently with the intention of purchasing some goods, but departed without doing so. A short time afterward Mr. H. discovered that he had lost a watch valued at \$150, and informed the police of the fact. Yesterday Taylor was discovered in the act of pawning the watch, and taken into custody. He was committed to the Hammond-street Station-house to await an examination before Judge Lowe, which will probably take place this morning.

The Recent Calamity of the Potomac. The Port Tobacco Times gives the following further particulars in regard to the drowning of the Harris sisters of this city. 'The Times says: 'He reached the upset boat after a manly but vain effort to save one of his sisters. Mr. Grant Harris was not a good swimmer, but struggled hard to reach the boat with the other lady, and finally sank from exhaustion when almost within reach of the object. The nearest source of rescue, we understand, was full a mile distant, and before the first boat reached the scene of disaster, Grant Harris and the two young indies had sunk to rise no more. Messrs. H. Ferguson and Hugh Mitchell, who, on Ferguson's porch, were witnesses of the sad occurrence, hastened with all speed to a boat and started to the rescue; but, alas, when they arrived it was to realize the sad and heart-sickening fate that their three young friends were past all assistance.

We learn that the beddies have all been re-

assistance.

We learn that the bodies have all been re-covered from the river, and interred at "Wa-verly," the homestead of Mrs. Harris,"
